February 22, 2018

Dear South Western School District Community:

The past several days have created a sense of uncertainty and anxiousness in our schools and neighboring school districts. It has most certainly interrupted student learning and a sense of security in our schools. This is both unfortunate and regrettable. However, I want to reassure our families, and our community, we are committed to student safety.

Our school district will continue to address all threats in a very deliberate and serious manner. We will continue working with our law enforcement partners to determine the level and the credibility of any threat. **Please note there is no known threat at this time in the South Western School District.**

It is undoubtedly a challenging time for our families and our community. Now, more than ever, we must unite and show the strength of our Mustang Family to maintain a circle of safety around our students. We appreciate your diligence and support as we continue to move forward.

Sincerely,

Jay H. Burkhart, D.Ed.
Superintendent of Schools
